To increase cycling skills,
control and confidence in
students

"Great session! Was awesome checking in with the less confident/ learners. Was very uplifting and engaging at all times. Everyone left the session happy"

-Jesse (Teacher Marlborough Primary)

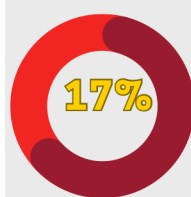

"I know that even after completing the training I still have more to improve on for myself. It was super fun and I enjoyed it so much. It was so wonderful when I rode the bike by myself for a couple of seconds. Thank you for teaching me to be more confident. I want a bike now!"

- Dinel

"I learnt that I need to put my left foot down on the ground when I stop and to pull the brakes slowly with bunny ear fingers"

- Orlaith
